Performance Notes

In the seventeenth century, the notation is under-prescriptive by modern standard and some elements of the performance may only be partially indicated or not indicated at all. Generally speaking, the performer has the discretion to supply in performance much that is not indicated in the source, such as by adding ornaments as well as melodic and rhythmic fillers, by spreading chords in a variety of ways, by embellishing the cadences, and sometimes even by enriching the texture with points of imitation. The modern performer can take lessons from D'Anglebert, who re-edited a selection of his autograph pieces for publication in 1689.¹ The performance attitude and elusive nature of the seventeenth-century French repertory has been exhaustively discussed by David Fuller, Ronald Broude, Bruce Gustafson, and others.
